

## Proposta di attività culturale

### **PIRANDELLO PROJECT - On the Edge of Silence (Lugano, il Foce, giovedì 11 e venerdì 12 novembre 2010)**

*Teatteri Metamorfoosi succeeds to convey with its suggestive sound world and multi-layered storytelling a meaningful and visually creative show in which also the silence becomes audible.*

*Pirandello Project - On the Edge of Silence* is a silent mask and puppet theatre performance that takes place in a society that has declared creative activity to be inefficient, dangerous... and illegal.

*Teatteri Metamorfoosi* presents a visually poetic piece, where the pure magic in the act of imagination turns into a rebellious act, capable of re-appropriating another person's life. For imagination is not an escape from reality, but the tool by which we shape it.

The performance is inspired by the last, unfinished play by Luigi Pirandello *I Giganti della Montagna* (The Mountain Giants).

*Teatteri Metamorfoosi's* new performance had the opening night on 23.8.2009 in Korjaamo Cultural Factory in the Stage Helsinki Theatre Festival and during the Helsinki Festival.
